I am writing to highly recommend Thong for any Senior iOS developer position. During his tenure at JobAdder, Thong has consistently demonstrated exceptional technical skills, a proactive attitude, and a strong ability to collaborate effectively within a team.

From day one, the quality of Thong's work has been impeccable. He built a significant part of the new JobAdder iOS app from scratch, and the app looks amazing, reflecting Thong's expertise and passion for iOS development. He approached every task with immense care and diligence, always with a smile, making Thong a pleasure to work with.

Thong worked successfully in a remote, agile crew. He is very reliable, never dropping the ball on any task. Thong also happily took on new challenges, such as researching how to build a widget, and consistently delivered high-quality work without compromising speed. Thong's user stories were a joy to review, with hardly any defects to fix.

The entire crew holds Thong in high regard. He brought joy to the team, not just through his work, but also through his positive attitude and team spirit. Thong regularly contributed to team meetings, including design reviews, offering ideas and advice that significantly improved the app.

Losing Thong's expertise and passion is a real shame for us, he brought so much value to our team. I have always appreciated Thong's dedication and the joy he brought to our workplace.

I am confident that Thong will thrive in any future Senior iOS Developer role and recommend him without reservation. Should you require any further information, please do not hesitate to contact me.

Sincerely,

Alva Kiel
